> ISBN 0 11 620423 0 ISSN 0308-6666

Introduction

This Digest has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.

The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged.

The figures in the *Digest* are mainly totals for calendar months or monthly averages.

Provisional data

Some figures in *Monthly Digest* are provisional and may be subject to revision in later issues. This applies particularly to data for the most recent time periods.

Definitions

The 1990 Supplement of Definitions and Explanatory Notes was published towards the end of March. This gives detailed definitions of all the terms and units used in the Digest. The following general definitions should be noted in using the Digest.

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Seasonality: Except where otherwise stated, all statistics are not adjusted to take account of seasonal factors.

Consumption and stocks. The terms 'consumption', 'disposals' and 'stocks' are defined in detail in the Supplement to the Digest. Figures of consumption and stocks are seasonal and should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

External trade. Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

Prices. Except where otherwise stated, all prices are shown on a current basis.

Money. There is no single correct definition of money and there are many liquid assets which are not included in any of the UK monetary aggregates but which nevertheless need to be taken into acount on occasions when interpreting monetary conditions. Consequently, many definitions of money stock are widely used: M0, the narrowest measure consists of notes and coin in circulation outside the Bank of England and bankers' operational deposits at the Bank.

M2 comprises notes and coin in circulation with the public plus sterling retail deposits held by the UK private sector with UK banks, with building societies and in the National Savings Bank ordinary account.

M4 comprises notes and coin in circulation with the public, together with all sterling deposits (including certificates of deposit) held with UK banks and building societies by the rest of the private sector.

M5 is equal to M4 plus private sector holdings of certain money-market instruments, CTDs, and some national savings instruments.

Symbols and conventions used

Symbols. The following symbols are used throughout:

- .. not available
- nil or less than half the final digit shown
- * average (or total) of five weeks
- † indicates that the data is either new or has been revised since last edition; the period marked is the earliest in the table to have been revised.

Change of basis. A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

Rounding of figures. In tables where figures have been rounded to the nearest final digit, there may be a slight discrepancy between the sum of the constituent items and the total as shown.

Central Statistical Office Great George Street London SWIP 3AQ

31 July 1990

CSO Databank

Most tables in this publication contain data which is available on the Monthly Digest dataset, one of the datasets in the CSO Databank. The appropriate four digit identifier is included at the top of the column or start of the row of figures. This is to facilitate access to the data in computer-readable form and make available longer runs of data than appear in these tables.

The CSO Databank is a collection of mostly macro-economic time-series available on magnetic tape or disk. The tape format, unlabelled EBCDIC, is the same for all the datasets. The disks, either 3½" or 5¼" are written in ASCII text which can be loaded as spreadsheets and viewed using standard spreadsheet packages, such as LOTUS or SMART. Details of the service offered, and the schedule of charges, are available from the Databank Manager, Room 52A/4, Central Statistical Office, Government Offices, Great George Street, London SWIP 3AQ (Tel: 071-270 6386, 6387 or 6381).

¹ Equals taxes on expenditure less subsidies.
2 The factor cost estimate of GDP is obtained from the market price estimate by subtracting the factor cost adjustment.
3 Gross national product equals Gross domestic product plus Net property income from abroad.
4 Represents Taxes on expenditure less Subsidies both valued at 1985 prices.
5 The deflator implied by the expenditure-based estimate of GDP at factor cost divided by the corresponding 1985 price estimate. Also known as the Index of Source: Central Statistical Office

1.2 Gross domestic product: by category of expenditure

£ million, current prices

Includes quarterly national accounts statistical adjustment. For explanation see CSO GDP Press Release of 22 June 1990 Notes to Editors.

2 Average estimates are made in seasonally adjusted form only. No equivalent unadjusted estimates exist.

3 The average estimate of Gross domestic product at market prices can be obtained by adding Taxes on expenditure to and subtracting Subsidies from the average estimate at factor cost.

Source: Central Statistical Office

Gross domestic product: by category of expenditure

€ million, 1985 prices¹

prices.

¹ For years up to and including 1982, totals differ from the sum of the components because of the method used to rebase on 1985 prices.
2 Includes quarterly national accounts statistical adjustment. For explanation see CSO GDP Press Release of 22 June 1990 Notes to Editors.
3 Represents Taxes on expenditure less Subsidies, both valued at 1985

consumption of non-trading capital.

⁷ The sum of the factor incomes before deducting stock appreciation.
8 The Residual error is, by convention, expressed as the amount by which the expenditure-based estimate of Gross domestic product exceeds the income-

¹ Wages and salaries, forces' pay and employers' contributions.
2 Before providing for depreciation and stock appreciation.
3 Including financial institutions.
4 Figures reflect privatisations.
5 Includes quarterly national accounts statistical adjustment. For explanation see CSO GDP Press Release of 22 June 1990 Notes to Editors.
6 Income from rent and from self-employment, and the imputed charge for the consumption of non-trading capital.
7 The sum of the factor incomes before deducting stock appreciation.
8 The Residual error is, by convention, expressed as the amount by which the expenditure-based estimate of Gross domestic product exceeds the income-based estimate.
7 The sum of the factor incomes before deducting stock appreciation.
8 The Residual error is, by convention, expressed as the amount by which the expenditure-based estimate of Gross domestic product exceeds the income-based estimate.
9 The average estimate of Gross domestic product is estimated in seasonally adjusted and unadjusted versions exist of the Residual error, the attribution of statistical discrepancies to the consumption of non-trading capital. justed form only. Therefore whilst seasonally adjusted and unadjusted versions exist of the Residual error, the attribution of statistical discrepancies to the expenditure-based and income-based measures can be made only in seasonally adjusted form.

¹ Estimates of the gross domestic product obtained from statistics of expenditure are given in Table 1.1.
2 The latest data for the index of production (series DVIM) are presented in Table 7.1. The figures given in this table are consistent with the figures for the output measure of gross domestic product.

3 Based on the net output of incorporated concerns and the self-employed, using information from the Annual Census of Construction and from the Inland Revenue.

No estimates of an acceptable quality for 1988 and 1989 are available.
 In this series capital formation in imported ships is included at the time of delivery instead of when the expenditure takes place.
 Covers agriculture, forestry and fishing construction and other service industries.

⁴ For explanation of adjustment see CSO GDP Press Release of 22 June 1990 Notes to editors.

1 The workforce consists of the workforce in employment and the unemployed (claimants); the workforce in employment comprises employees in employment, the self-employed, HM Forces and participants in work-related government training programmes. For more details see the August 1988 edition of Employment Gazette.

ealion to Employment Gazette.

2 Estimates of employees in employment for December 1987 and subsequent months include an allowance based on the Labour Force Survey to allow for persistent undercounting in the regular sample enquiries (Employment Gazette October 1989, page 560). For all dates, individuals with two jobs as employees of different employers are counted twice.

3 Estimates of the self-employed up to mid- 1989 are based on the 1981 census of population and the results of Labour Force Surveys carried out between of population and the results of Labour Force Surveys carried out between 1981 and 1989. The provisional estimates from September 1989 are based on the assumption that the average rate of increase between 1981 and 1989 has continued subsequently. A detailed description of current estimates is given in an article on page 220 of the April 1990 Employment Gazette.

4 HM Forces figures, provided by the Ministry of Defence, represent the total number of UK service personnel, male and female, in HM Regular Forces, wherever serving and including those on release leave. The numbers are not

subject to seasonal adjustment.

¹ Regard must be taken of the effect of seasonal patterns and differences in planned annual intake levels in any comparisons of quarterly or annual intakes.

² Some personnel have a liability for Reserve Service. The figures include deaths.

³ The differences between strengths at successive dates may not match the intake and outflow figures for corresponding periods because of delays in recording transfers between the Services and similar occurrences.

ansfers between the Services and similar occurrences.

¹ Unadjusted figures from September 1988 are affected by the new benefit regulations for those aged under 18, most of whom are no longer eligible for Income Support. This reduces the UK unadjusted total by about 90 000 on average with most of this effect having taken place over the two months to October 1988.

Sources: Department of Employment; Department of Economic Development (Northern Ireland)

² The unadjusted figures for September 8 1988 include some temporary over-recording, estimated at about 55 000, because of the postal strike in Great Britain (Northern Ireland was unaffected). An allowance for this distortion has been made in the seasonable editored figures for September.

tion has been made in the seasonally adjusted figures for September.

3 Percentage rates have been calculated by expressing the total numbers unemployed as percentages of the numbers of employees in employment, unemployed, self-employed, HM Forces and participants on government training programmes at the appropriate mid-year.

⁴ The seasonally adjusted relate only to claimants aged 18 or over, in order to maintain the consistent series, available back to 1971 (1974 for the regions), allowing for the effect of the change in benefit regulations for under 18 year olds from September 1988 (see page 660 of the December 1988 Employment Gazette). The seasonally adjusted series also takes account of past discontinuities to be consistent with current coverage (see page 422 of the October 1986 Employment Gazette for the list of previous discontinuities taken into account).

¹ About one third of all vacancies are notified to Jobcentres. These could include some that are suitable for young persons and similarly vacancies notified to careers offices could include some for adults. Because of possible duplication the two series should not be added together. The figures represent only the number of vacancies notified by employers and remaining unfilled on the day of the count. 2 Included in South East.

³ Excluding vacancies on government programmes (except vacancies on Enterprise Ulster and Action for Community Employment (ACE) which are included in the seasonally adjusted figures for Northern Ireland). Note that Community Programme vacancies handled by Jobcentres were excluded from the seasonally adjusted series when the coverage was revised in September 1985. The coverage of the seasonally adjusted series is therefore not affected by the cessation of C.P. vacancies with the introduction of Employment Training in September 1988. Figures on the current basis are available back to 1980. For further details see page 143 of the October 1985 Employment Gazette.

¹ Excludes stoppages involving fewer than 10 workers or lasting less than one day except any in which the total number of working days lost exceeded 100. There may be some under-recording of small or short stoppages; this would have much more effect on the total stoppages than on working days lost. The figures for 1990 are provisional.

2 The figures of working days lost relate to the total working days lost within each of the periods shown as a result of stoppages in progress in that period, whether the stoppages began in that period or earlier.

1 Includes overseas cases.

2 Yearly figures are averages of quarterly figures. Quarterly figures relate to the Thursday following the first Monday in the month.

Excluding claims made under the emergency benefit procedure. Figures for individual months are averages of the four or five weeks starting on the first Monday of each medical control. Monday of each month.

Withday of each morth.
4 From 6 April 1983 Statutory sick pay was introduced to cover the first 8 weeks of incapacity. From 6 April 1986 the period was extended to 28 weeks. From April 1986 reporting periods will be calendar months instead of all weeks (ending on Tuesday) in each month.

5 Excluding pensioners in receipt of non-contributory retirement pension awarded under National Insurance Acts 1970 and 1971 and cases where graduated pen-

under National insurance Acts 1970 and 1971 and cases where graduated persion only was awarded.

6 Including a diminishing number of widows with pensions of £1.50 a week derived from the old Contributory Pensions Acts.

7 Figures do not include approx. 1.12m cases converted to Pension Strategy Project (PSP) and 7700 new awards taken on by Pension Strategy Computer System (PSCS).

8 Provisional.

For further information refer to section 6 of the Monthly Digest Supplement of Delinitions and Explanatory Notes.

3 From January 1984, total UK consumption by food and other industries (including sugar used in the chemical industry).

4 Excludes Channel Isles exports to G.B.

of Definitions and Explanatory Notes.

1 Changes in stocks differ from movements into human consumption due to wastage when dressing potatoes on producers'/merchants' premises.

¹ The figures relating to both home production and releases for home consumption take account of brewing at high gravity with the addition of some brewing liquor after fermentation.

2 Percentage alcohol by volume.

3 For the period April 1984 to July 1985 the middle band included wine of a strength of exactly 15 per cent.

4 Before April 1983, the figures represent quantities of all mature home-produced spirits.

5 Includes imported spirits.

6 A small quantity of molasses spirit is used in beverage spirit production. See explanatory notes to Section 9 in the Supplement of Definitions and Explanatory Notes for this publication.

7 Production, output and costs

7.1 Output of the production industries¹

Average 1985 = 100

¹ Including timber, furniture, rubber and plastics.
2 Industries are grouped according to the Standard Industrial Classification 1980.
3 Unadjusted data may be obtained from the Central Statistical Office at the address shown inside the front cover of this publication.

7.1 Output of the production industries¹

Average 1985 = 100

¹ Output per head is the ratio of the output index numbers published in Table 7.1 and the employed labour force. A monthly series for total manufacturing industries is presented in Table 7.3.

2 Based on the output measure of Gross Domestic Product.

3 Comprises employees in employment, self-employed and HM Forces.

¹ Deliveries, except for gas, electricity and iron and steel industry use of solid fuels.
2 Coke and other manufactured solid fuels.
3 Coke oven gas and creosote/pitch mixtures.
4 Natural gas, supplied direct, and town gas.
5 Mainly public administration, commerce and agriculture.

1 Great Britain only.

2 Public supply and railway and transport power stations.
3 Gas works, low temperature carbonisation and patent fuel plants.
4 For 1984 onwards, includes estimated proportion of total imports.

5 Including miners' coal.

Disposals by collieries and opencast sites.
 Anthracite, dry steam coal and imported naturally smokeless fuels.
 Includes public administration and commerce.
 Excluding distributed stocks held in merchants' yards, etc, mainly for the domestic market and stocks held by the industrial sector.

10 Provisional.

1 Figures differ from Gas sent out because of stock changes and the inclusion of small quantities of Substitute Natural Gas and Town Gas in gas sent out. They include gas put to storage, but to avoid double counting, exclude gas withdrawn from storage to the system. The figures also

differ from total consumption (expressed in coal or oil equivalent in Tables 8.1 and 8.2) because of producers own use and losses and small quantities not entering the gas supply system. 2 Provisional.

Fuel used and electricity generated by major generating companies (National Power, PowerGen, Nuclear Electric, National Grid Company, Scottish Power, Scottish Hydro, Scottish Nuclear, Northern Ireland Electricity Service, Midlands Electricity and South Western Electricity), and electricity available through the grid in England and Wales and from Distribution Companies in Scotland and Northern Irland.

2 Including quantities used in the production of steam for sale.

3 Including oil used in gas turbine and diesel plant and for lighting up coal-fired 9 Provisional. boilers and Orimulsion.

4 Including gas, wind power and any coke.

Used in works and for pumping at pumped storage stations.
 Coal Oil (including Orimulsion) and mixed or duel-fired (including gas).
 Including gas turbine, diesel wind and hydro-electric plant.

8 Including net imports and purchases from outside sources mainly UKAEA and British Nuclear Fuels plc, and net of supplies direct from generators to final consumers. 53

Sales by the gas and public electricity supply systems

¹ Years ended 31 May.

Fertiliser Manufacturers Association

Noting to content.
 Total weight of compound fertilisers.
 Industrial ethyl alcohol is distilled from molasses or derived from other. tory Notes.

Years ended 31 May.

S Figures relate to sales by manufacturers in the United Kingdom who are classified to AH 2581 (Soap and synthetic detergents) previously MLH 275, and who from the first quarter 1981 employ 50 or more, replacing the previous emprocesses: the current usings of molasses spirit in beverage spirit production are believed to be comparable with the usings in the preceding financial year - see explanatory notes in the Supplement of Definitions and Explanations of the second of the second

from 1st quarter 1961 replacing the previous employment level of 25. 2 Figures from the 1st quarter 1983 to 1st quarter 1987 for products of con-

densation, polycondensation and polyaddition exclude polyamides and sil-icones. A comparable figure for 4th quarter 1982 would be 132.4. 3 Figures from 1st quarter 1984 exclude flexible and rigid foam for products of

condensation, polycondensation and polyaddition. A comparable figure for 4th quarter 1983 would be 145.6.

Figures from 1st quarter 1983 to 4th quarter 1983 for cellulosics and other plastics and modified natural resins consist only of cellulose film; an equivalent figure for 4th quarter 1982 would be 13.5.

Figures from 1st quarter 1983 to 4th quarter 1983 for cellulosics and other plastics and modified natural resins consist only of cellulose film; an equivalent figure for 4th quarter 1982 would be 13.5.

⁵ From 2nd quarter 1983, figures for intermediate forms between the resin and semi-fabricated stages exclude mouldings and extrusion compounds of phenolics. A comparable figure for 1st quarter 1983 would be 55.9.

¹ Figures relate to sales by UK manufacturers employing 75 or more persons 6 Figures from 1st quarter 1984 for semi-linished products exclude copper clad and glass based industrial laminated thermosetting sheet and extruded flexible plasticised film. A comparable figure for 4th quarter 1983 would be 108.5. 7 Figures from 1st quarter 1986 to 1st quarter 1987 for products of condensation

and polyaddition exclude modified resins. A comparable figure for 4th quarter 1985 would be 147.7.

⁸ Figures for 2nd quarter 1987 for products of condensation, polycondensation and polyaddition include modified resins and polyamides. A comparable figure

aminoplastics, phenolics, polyurethanes, and polyamides. A comparable figure for 4th quarter 1987 would be 123.1.

9.5 Production of selected organic chemicals¹

Figures relate to sales by UK manufacturers employing 50 or more persons from 1981 Q1 replacing the previous employment level of 25.
 Hydrocarbona (other than products of coal tar distillation, benzole refining and wood carbonisation).

⁴ Including that used in the production of benzene.
5 Includes hydrocarbon benzene from 1985 Q4. A comparable figure for 1985 Q3 is 210 108.

⁶ Including paraformaldehyde (expressed as 100 per cent formaldehyde).

Copper and copper alloys.
 Including the pure content of primary alloys.
 Including the primary content used in the production of secondary metal.

¹ Lead reclaimed from secondary scrap material, and lead refined from bullion and domestic ore, including antimonial lead.
2 Including toll transactions. Figures of Home consumption of lead comprise imported primary, secondary, English refined and antimonial lead.
3 Excluding secondary.
4 Stocks held by consumers and LME warehouses.
5 Including scrap.

Includes naval vessels registered as merchant ships.
 Gross tonnes is a constructed measure of the volume of all the enclosed spaces in a vessel except those occupied by engines, bunkers and crew.
 The total tonnage specified on ordering vessels differs slightly from total actual measured tonnage on completion.
 Vessels are shown for export if they are for other than UK registration.

Modifications include alterations of 500 gross tonnes or more to the torinage and the country of registration of vessels already on order.
 Cancellations only.
 From Q1 1984 gross tonnage conforms to 1969 International Maritime Organisation Convention on tonnage measurement of ships.
 Modifications and cancellations exceed new orders for the period.

All indices have been revised.
 Not over 30 cwt. unladen weight.
 Includes vehicles with drawbar trailers.
 The figures for road goods transport are estimated from a continuing sample

The quarterly figures relate to 13-week periods and not three calendar months.
 Revised to exclude estimates of work done by vehicles under 3.5 tonnes gross vehicle weight.

2 To avoid disclosure the figure for the first quarter of each year is included with that for the second quarter.

mat for the second quarter.

3 Including passengers on pleasure cruises beginning and/or ending at UK seaports.

4 The figures do not include oil rigs.

Sources: Department of Transport; Civil Aviation Authority

EC=European Community. Spain and Portugal have now joined the EC.

1 Excluding movement by land across the frontier between the Irish Republic and Northern Ireland, passengers travelling between the Channel Islands and Great Britain, passengers carried in aircraft chartered by British government departments and as far as possible, passengers travelling by sea on day trips and HM and other Armed Forces travelling in the course of their duties.

tries have been attributed to the European continent and Mediterranean Sea

Zambia 11 Including Belize, Costa Rica, Cuba, Dominican Republic, El Salvador, Guatemala, Haiti, Honduras, Mexico, Nicaragua and Panama.

1 Passengers to and from North Africa and Middle East Mediterranean coun- 12 Including Burundi, Djibouti, Ethiopia, Kenya, Rwanda, Somali Republic, Sudan,

Tanzania and Uganda. 13 Including Bandar Seri Begawan, Burma, China, Hongkong, Indonesia, Kamareas.
2 Including hovercraft passengers.
3 Consists of Denmark, Germany (Federal Republic) and Italy.
4 Including Albania, Bulgaria, Czechoslovakia, German Democratic Republic, Hungary, Poland, Rumania and Union of Soviet Socialist Republics.
5 Including Albania, Bulgaria, Czechoslovakia, German Democratic Republic, Hungary, Poland, Rumania and Union of Soviet Socialist Republics.
5 Including Faroes, Gibraltar, Iceland and Luxembourg.
6 Including Jordan, Lebanon, Israel and Syria.
7 Including Algeria, Egypt, Libya, Morocco and Tunisia.
8 Figures for Other countries cover mainly passengers to or from the Canary Islands, Madeira and the Azores.
9 Including Bahamas. Barbados. Rermuda. Cavman Islands. French Antilles.
13 Including Bandar Seri Begawan, Burma, Cnina, Hongworg, mornersia, Namity Alpena, Christ, Chile, Chile, Chile, Chile, Chile, Colombia, Eduador, Guyana, Paraguay, Peru, Uruguay and Venezuela.
9 Including Bahamas. Barbados. Rermuda. Cavman Islands. French Antilles.
13 Including Bandar Seri Begawan, Burma, Cnina, Hongworg, mornersia, Namity Landard Vietnam.
14 Including Alghanistan, Bangladesh, India, Pakistan and Sri Lanka.
15 Including Islands, Wawait, Persian Gulf States, Republic of North Yemen, Saudi Arabia and United Arab Emirates.
16 Including Botswana, Lesotho, Mozambique, Namibia, South African Republic, Swaziland and Zimbabwe.
17 Including Botswana, Lesotho, Mozambique, Namibia, South African Republic, Swaziland and Zimbabwe.
18 Including Bahamas. Barbados. Rermuda. Cavman Islands. French Antilles.
18 Including Benin. Cameroon, Equatorial Guinea, Gabon, Gambia, Ghana,

Islands, Madeira and the Azores.

Including Bahamas, Barbados, Bermuda, Cayman Islands, French Antilles, Jamaica, Leeward Islands, Netherlands Antilles, Puerto Rico, Trinidad and Tobago, Turks and Caicos Islands, US Virgin Islands and Windward Islands.

O Including Angola, Central African Republic, Chad, Congo, Malawi, Zaire and Atlantic Ocean Islands, Indian Ocean Islands and Pacific Ocean Islands.

The statistics are on an overseas trade basis (see footnote 1 to Table 15.7)

1 These are defined as ships, North Sea installations (together comprising SITC(Rev 3)(793), aircraft (792), precious stones (667) and silver (681.1).

2 Excluding precious stones and silver (PS).

3 Excluding ships, North Sea installations and aircraft (SNA).

4 Based on the Classification by Broad Economic categories (BEC) published by the United Nations.

The statistics are on an overseas trade statistics basis (see footnote 1 to Table 15.7) to which a number of changes have been made to the coverage, with effect from 1 January 1981. The changes, which are described below, were previously taken into account by means of balance of payments adjustments.

a) Trade in precious stones now excludes consignments which cross national boundaries on a temporary basis only, is for valuation or for exhibition, previously these were included in the *Overseas Trade Statistics* figures each time they arrived or left the United Kingdom.

b) Trade in secondhand aircraft is excluded where the aircraft are being imported or exported solely for the purpose of repair or modification, but the value of the work done in undertaking the repair or modification is included.
c) Certain atomic energy materials previously excluded are now included.

1 The numbers on the left hand side of the table refer to the Section and Division code numbers of the Standard International Trade Classification, Revision 3 which was introduced in January 1988.

2 The broad structure of SITC(R3) follows that of SITC(R2) but two major

changes should be noted:

1) Explosives and Pyrotechnic products division 57 in SITC(R2) forms part of

division 59 in SITC(R3), and

2) Military equipment part of section 9 in SITC(R2) forms part of division 89 in SITC(R3). However, from June 1988, Military equipment has been transferred back to section 9 to remove the problem of discontinuity in trends for Trade in manufactures (sections 5-8) over time.

9. Commodities and transactions not classified elsewhere	BQWQ	1 413.1	1 512.0	368.8	442.8	173.7	130.7	127.0 [†]
Total United Kingdom imports	BOWR	106 571.2	120 787.7	31 088.3	32 115.1	11 567.8	10 748.0	11 101.5†

The statistics are on an overseas trade statistics basis (see footnote 1 to Table 15.7) to which a number of changes have been made to the coverage, with effect from 1 January 1981. The changes, which are described below, were previously taken into account by means of balance of payments ad-

a) Trade in precious stones now excludes consignments which cross na-tional boundaries on a temporary basis only, ie for valuation or for exhibition, previously these were included in the Overseas Trade Statistics figures each time they arrived or left the United Kingdom. b) Trade in secondhand aircraft is excluded where the aircraft are being im-ported or exported solely for the purpose of repair or modification, but the

value of the work done in undertaking the repair or modification is included.
c) Certain atomic energy materials previously excluded are now included.

1 The numbers on the left hand side of the table refer to the Section and Division code numbers of the Standard International Trade Classification, Revision 3, which was introduced in January 1988.

2 The broad structure of SITC(R3) follows that of SITC(R2) but two major

changes should be noted:

changes should be noted:

1) Explosives and Pyrotechnic products division 57 in SITC(R2) forms part of division 59 in SITC(R3), and

2) Military equipment, part of section 9 in SITC(R2) forms part of division 89 in SITC(R3). However, from June 1988, Military equipment has been transferred back to section 9 to remove the problem of discontinuity in trends for Trade in manufactures (sections 5-8) over time.

15.4 Value of exports (f.o.b.) and imports (c.i.f.): analysis by area

The statistics are on an overseas trade statistics basis (see footnote 1 to Table 15.7) to which a number of changes have been made to the coverage, with effect from 1 January 1981. The changes, which are described below, were previously taken into account by means of balance of payments adjustments.

a) Trade in precious stones now excludes consignments which cross national boundaries on a temporary basis only, is for valuation or for exhibition, previously these were included in the Overseas Trade Statistics figures each time they arrived or left the United Kingdom. b) Trade in secondhand aircraft is excluded where the aircraft are being import-

of reace in secondaria and call its sectoded where the arctical are being imported or exported solely for the purpose of repair or modification but the value of the work done in undertaking the repair or modification is included.

c) Certain atomic energy materials previously excluded are now included.

1 Prior to January 1986 items valued at less than £200 have not been allocated to specific countries and areas. With effect from 1 January 1986 the threshold was raised to £475, increased to £500 as from 1 January 1988.

¹ Statistics of visible trade on a balance of payments basis (shown in Table 16.1) are obtained by making certain adjustments in respect of valuation and coverage to the statistics recorded in the Overseas Trade Statistics.

These adjustments are described in detail in United Kingdom Balance of Payments 1983 Edition.

² Export unit value as a percentage of the import unit value index.

 The ratios were first introduced in an article in the August 1977 edition of Economic Trends 'The Home and Export Performance of United Kingdom Industries' which described the conceptual and methodological problems involved in measuring such variables as import penetration. The latest ratios for the full detail within manufacturing (over 200 Activity Headings) are shown in Business Monitor MQ12 Import Penetration and Export Sales for

Manufacturing Industry:

2 The calculation of the ratios is inappropriate for certain industries. In such 3 Revised cases, and where suitable data are not available, the industry has been omitted from the analysis. The Activity Headings (AHs) concerned are:

AH2247.2 Precious metals, AH2396(pt) Unworked precious stones, AH2436 Ready-mixed concrete, AH3138 Heat and surface treatment of metals, AH3246 Process engineering contractors, AH3480 Electrical equipment installation, AH4121 Slaughterhouses, AH4370 Textile finishing, AH4560 Fur goods, AH4672 Shop and office fittings, AH4820 Retreading and specialist repairing of rubber tyres, AH4910 Jewellery and coins and AH4930 Photographic and cinematographic processing laboratories.

¹ Following the recommendation of the Retail Price Index Advisory Committee, the index has been re-referenced to make 13 January, 1987–100.

Further details can be found in the April 1987 edition of Employment Gazette.

Seasonal food is defined as; items of food the prices of which show significant seasonal variations. These are fresh fruit and vegetables, fresh fish, eggs and home-killed lamb.

3 For the February, March and April 1988 indices, the weights for seasonal and non-seasonal food were 24 and 139 respectively. Thereafter the weight for home-killed lamb (a seasonal item) was increased by 1 and that for imported lamb (a non-seasonal item) correspondingly reduced by 1 in the light of new information about their relative shares of household expenditure.

4 From December 1989 the Nationalised Industries Index is no longer published. Industries remaining nationalised in December 1989 were, Coal, Electricity, Postage and Rail.

Note: The purpose and methodology of the Tax and price index were described in an article in the August 1979 issue of *Economic Trends* and in the September *Economic Progress Report* published by the Treasury. The purpose is to produce a single index which measures changes in both direct taxes (including national insurance contributions) and in retail prices for a representative cross-section of taxpayers. Thus, while the Retail prices index may be used to measure changes in the purchasing power of after-tax

income (and of the income of non-taxpayers) the Tax and price index takes account of the fact that taxpayers will have more or less to spend according to changes in direct taxation. The index measures the change in gross taxable income which would maintain after tax income in real terms.

The months April, May and June for the years 1979 and 1980 are affected by the late timing of the 1979 Budget.

sector are excluded.

2 Index numbers are compiled exclusive of VAT. Revenue duties (on cigarettes, tobacco and alcoholic liquor) are included, as is duty on hydrocarbon oils.

3 A base weighted (1985=100) combination of the separate price indices for contractor's output in the five new work sectors.

Note: The dagger symbol beside a figure indicates the earliest revised value for each series. Figures for the last 2 months shown are provisional.

Index numbers are constructed on a net sector basis le transactions within sector are excluded.

4 The index covers only dwellings on which building societies have approved mortgages during the period. The cost of land is included.

5 The Abbey National ceased to operate as a building society in July 1989 but to ensure continuity in the data its results are included in the building society sector wherever possible.

Index

Figures indicate Table numbers

Agricultural land, 6.1
Agriculture, 6.1-6.3
employment, 3.2, 3.7
index of producer prices, 18.12
index of purchase prices, 18.12
Agriculture and forestry
average earnings, 18.10
Alcoholic drinks, 1.6, 6.13
retail price indices, 18.1, 18.2
Aluminium, 10.3
Animal feedingstuffs:
price indices, 18.12
Animals and animal products, 6.3, 6.4, 6.8
price indices, 18.12
Aviation, civil, 13.9, 13.11, 13.12

Bacon and ham. 68

Balance of payments, 16.1-16.3 Banking sector, private sector deposits, 17.3 private sector borrowing, 17.3 Barley-see Cereals Beer, 1.6, 6.13 Births registered, 2.3 Biscuits, 6.5 Blankets, wool, 11.3 Boots and shoes-see Footwear Bricks, 12.3 British Government securities, 20 years yield, 17.5 British Rail freight traffic, 13.8 passenger kilometres, 13.7 Brushes, 11.11 Building block (concrete), 12.3 Building materials and components, 12.3 producer price index, 18.6 Building societies, deposits and advances, 17.3 Buildings, agricultural: price indices, 18.12 Buner. 6.10

Canned fruit, 6.11 Canned meat, 6.8 Canned soups, 6.11 Canned vegetables, 6.11 Capital expenditure, 1.9, 1.10 Capital formation, 1.8 Capital issues, 17.3 Carpets and rugs, 11.12 Cars. Passenger-see Motor vehicles Cattle, 6.3, 6.4 price indices, 18.12 Cement, 12.3 Central government borrowing requirement, 17.1, 17.2 financial transactions, 17.1 Cereals, 6.1, 6.5 price indices, 18.12 Cheese, 6.10 Chemicals, 9.1-9.5 producer price index, 18.6 Child benefit, 4.1 Chocolate and sugar confectionery, 6.11 Civil Service: staff employed, 3.4 Clothing, 11.1, 11.4 employment, 3.3 Clothing and footwear, 1.6 producer price indices, 18.6 retail price indices, 18.1, 18.2 Coal and coal-mining, 8.4, 8.5, 8.7 Cocoa beans, 6.11 Coffee, raw, 6.11

Commercial vehicles—see Motor vehicles
Compound feedingstuffs, production, 6.6
Concrete, ready mixed, 12.3
Confectionery, 6.11
Consolidated fund, 17.1
Construction, 12.1, 12.2
employment, 3.2
producer price index, 18.6
Consumer credit, 17.3
Consumers' expenditure, 1.5, 1.6
Copper, 10.3
Cotton, 11.2
Crime—see Law enforcement
Crops harvested, 6.1
Crushed rock aggregates, 12.3

Dairy products, 6.10
Deaths registered, 2.4
Dental services, 4.4
Detergents, 9.1
Distributive trades,
average earnings, 18.10
Domestic appliances,
producer price index, 18.6
Durable goods, 1.6
retail price indices, 18.1, 18.2
Dyestuffs, 9.3

Earnings, in manufacturing and other industries, 18.7, 18.9 index of average earnings, 18.10, 18.11 Eggs. 6.10 price index, 18.12 Electrical engineering, 10.5-10.8 producer price index, 18.6 Electricity, 8.7—8.8 Employment, 3.1-3.13 analysis by industry, 3.2, 3.3 employees in, 3.2, 3.3 vacancies, 3.12 Energy, 8.1-8.10 Engineering industries, new orders, 10.8 orders on hand, 10.7 producer price index, 18.6 sales of goods and work done, 10.5 volume index numbers of sales, 10.6 Esparto, 11.9 Exchange rates. sterling effective, 17.5 US Spot, 17.5 Exports, 15.1, 15.2, 15.7 analysis by areas and countries, 15.4, 15.5 import penetration and export sales ratios, 15.10 unit value index, 15.9 volume index, 15.8

Family allowances, 4.1
Family income supplement/family credit, 4.2
Family practitioner services, 4.4

Units of measurement

I. Common units of measurement and their equivalents

Length		
	1 millimetre (mm)	= 0.039 370 1 inches
1 centimetre (cm)	= 10 millimetres	= 0.393 701 inches
1 metre (m)	= 1,000 millimetres	= 1.093 61 yards
1 kilometre (km)	= 1,000 metres	= 0.621 371 miles
	1 inch (in)	= 25.4 millimetres or 2.54 centimetres
1 foot (ft.)	= 12 inches	= 0.304 8 metres
1 yard (yd.)	= 3 feet	= 0.9144 metres
1 mile	= 1,760 yards	1.609 34 kilometres
Area		
	1 square centimetre	= 0.16 square inches
1 square metre (m²)	= million square millimetres	= 1.195 99 square yards
1 hectare (ha)	= 10,000 square metres	= 2.471 05 acres
1 square kilometre (km²)	= million square metres	= 247.105 acres
	1 square inch (sq. in.)	= 645.16 square millimetres or 6.451 6 square centimetres
1 square foot (sq. ft.)	= 144 square inches	= 0.092 903 0 square metres or 929.030 square centimetres
1 square yard (sq. yd.)	= 9 square feet	= 0.836 127 square metres
1 acre	= 4,840 square yards	= 4,046.86 square metres or 0.404 686 hectares
1 square mile (sq. mile)	= 640 acres	= 2.589 99 square kilometres or 258.99 hectares
Volume		
	1 cubic centimetre (cm ³)	= 0.061 023 7 cubic inches
1 cubic decimetre (dm³)	= 1,000 cubic centimetres	= 0.035 314 7 cubic feet
1 cubic metre (m³)	= million cubic centimetres	= 1.307 95 cubic yards
	1 cubic foot (cu. ft.)	= 0.028 316 8 cubic metres or 28.316 8 cubic decimetres
1 cubic yard (cu. yd.)	= 27 cubic feet	= 0.764 555 cubic metres
Capacity		
1 litre (I)	= 1 cubic decimetre	= 0.2200 gallons
1 hectolitre (hl)	= 100 litres	= 22.00 gallons
	1 pint	= 0.568 litres
2 pints	= 1 quart	= 1.137 litres
8 pints	= 1 gallon	4.546 09 cubic decimetres or 4.546 litres
36 gallons (gal.)	= 1 bulk barrel	= 1.636 56 hectolitres
Weight		
	1 gram (g)	= 0.035 274 0 ounces
1 kilogram (kg)	= 10 hectograms	= 2.204 62 pounds
1 tonne (t)	= 1,000 kilograms	1.102 31 short tons or 0.984 2 long tons
	1 ounce avoirdupois (oz.)	= 28.349 5 grams
1 pound avoirdupois (lb.)	= 16 ounces	= 0.453 592 37 kilograms
1 hundredweight (cwt.)	= 112 pounds	= 50.802 3 kilograms
1 short ton	= 2,000 pounds	= 907.184 74 kilograms or 0.907 184 74 tonnes
1 long ton	= 2,240 pounds	= 1,016.05 kilograms or 1.016 05 tonnes

II. Other units and equivalents used in the Monthly Digest of Statistics

Energy:	British thermal unit (Btu)	The amount of heat required to raise 1 lb. of water through 1 degree fahrenheit at or near 39.1 degrees fahrenheit					
	Therm	100,000 British thermal units					
	Gigawatt hour (GWh)	106 kilowatt hours					
	Megawatt (MW)	10 ⁶ watt					
	Terawatt hour (TWh)	109 kilowatt hours					
Food and drink:	Butter	23,310 litres milk	= 1 tonne butter (average)				
	Cheese	10,070 litres milk	= 1 tonne cheese				
	Condensed milk	2,550 litres milk	= 1 tonne full cream condensed milk				
		2.953 litres skimmed milk	= 1 tonne skimmed condensed milk				
	Milk	1 million litres	= 1,030 tonnes				
	Milk powder	8,054 litres milk	= 1 tonne full cream milk powder				
	•	10,740 litres skimmed milk	= 1 tonne skimmed milk powder				
	Eggs	17,126 eggs	= 1 tonne (approximately)				
	Sugar	100 tons raw sugar	= 95 tonnes refined sugar				
	Beer	1 bulk barrel	= 36 gallons irrespective of gravity				

Monthly Digest of Statistics

The Monthly Digest of Statistics provides basic information on 20 subjects including population, employment and prices, social services, production and output, energy, engineering, construction, transport, catering, national and overseas finance and the weather.

The Monthly Digest of Statistics contains mostly runs of monthly and quarterly estimates for at least two years and annual figures for several more.

Other CSO monthlies are Financial Statistics and Economic Trends.

The Monthly Digest Annual Supplement gives definitions and explanatory notes for each section. An index of sources is included.
